How do I add comments?

For a simple comments feature on your site, we suggest using:

1. **Disqus Comment Box**

2. **HTML Comment Box**

You can also use Google's search engine to find other alternatives.

Once you have the code needed, in your SiteBuilder, you can navigate to Widgets > Popular. Then, do the following:

1. Drag and drop the HTML Code Widget onto your page.
2. Paste the code you just copied into the HTML Editor.
3. Click "Save".
4. Save and republish your site to see your comment box working.
