How do I add Flash to my site?

By using the SWF Widget, you can easily embed a Flash file on your page without having to use complicated HTML code.

To add a Flash file to your page:

1. Click on Widgets > Media > Flash SWF.
2. Drag the Flash SWF Widget onto your page.
3. You can upload a new file from your computer or browse existing files already added to the File Manager.
4. If necessary edit the width, height, alignment and margin of the file.
5. Click “Save.”
