Windows mail - whitelist emails from GlowHost

In Windows Mail, double check this setting:

1. Click **Tools** -> **Junk E-mail Options**

2. Click **Safe Senders** tab
3. Click on **Add** and enter support@glowhost.com and billing@glowhost.com as new contacts.
4. Check "**Also trust email from my Windows Contacts**"

5. Click **Ok**

That's all. Emails will be delivered to inbox since now.
